PROFESSIONAL SUMMARY

Software developer with hands-on experience building Python, AI/ML, web, and automation applications. Experienced in projects involving **Generative AI, computer vision, browser-based systems**, and interactive web applications. Strong interest in software engineering and intelligent applications, with a focus on practical problem-solving and continuous learning.

TECHNICAL SKILLS

Languages	**Python, Java**
AI / ML	**Machine Learning, Generative AI, LLMs, Transformers, Embeddings, Computer Vision**, Prompt Engineering, Model Integration
Web / Frameworks	**Django, Streamlit**, HTML, CSS, JavaScript
Databases	**SQL, SQLite**
Tools / Platforms	**Git, GitHub, Firebase, WebAssembly**
Soft Skills	Problem-solving, Collaboration, Communication, Adaptability, Time Management, Responsibility

INTERNSHIP EXPERIENCE

Developer Intern — Swecha, IIIT Hyderabad

- Developed **Python-based automation workflows** involving LLM and vision-oriented techniques.
- Gained hands-on experience with **generative-AI workflows, chatbot development, and model integration**.
- Worked with **prompt-driven workflows** and practical AI application development.

Deloitte Virtual Internship — Forage Platform

- Completed industry-based tasks involving **problem-solving, data analysis, and business case evaluations**.

PROJECTS

VITS Academic Management System

Tools: Django, Python, SQLite, OpenCV, Firebase

- Developed a college academic management platform with role-based access, academic workflows, dashboards, attendance management, reporting, authentication, and computer-vision-based attendance functionality.

Nithin’s Coding Lab

Tools: HTML, CSS, JavaScript, Firebase, GitHub Pages

- Built a browser-based coding practice platform with authentication, coding workflows, progress tracking features, and a responsive user interface.

EchoVerse – Audiobook Creation Tool

Tools: Python, TTS Models, Streamlit

- Built a text-to-speech pipeline with preprocessing and prompt tuning to support audiobook creation and interactive generation workflows.

Secure Client-Side Python Coding Platform

Tools: JavaScript, WebAssembly, HTML/CSS

- Developed a serverless Python execution environment running entirely in the browser using WebAssembly-based sandboxing.

CERTIFICATIONS

- **Java Essentials** — Infosys Springboard, February 2025
- **Python for Data Science** — Great Learning, July 2023

EDUCATION

Vignan Institute of Technology and Science, Hyderabad

B.Tech — Electronics & Communication Engineering | Nov 2022 – Jul 2026 | **CGPA: 7.0/10**

Narayana Junior College

Intermediate — MPC | Sep 2020 – Apr 2022 | **691/1000**

Santhi Nikethan Talent School

SSC | 2019 – 2020 | **GPA: 8.8/10**
